DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group I in Paper No. 5 is acknowledged.

The traversal is on the ground(s) that no adequate reasons are provided for the restriction. This is not found persuasive because as stated in the restriction requirement, the quencher of Group I can be used for the labeling nucleoside or polypeptide, and the labeled nucleoside can be used for the method of Group VII, or VIII, or IX. Further Group III can be used in a hybridization method or PCR and the compound of Group II can be used as catalyst in enzymatic reactions, for example.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague and indefinite because it is unclear if the R substituent when Z is NHR and the R substituent for L1 moieties are identical to the R substituent for Y when Y is CR.

Art Unit: 1637

Claim 10 is vague and indefinite because it is unclear of what is R.

Claims 12 and 16 are vague and indefinite because it is unclear of what is meant by the phrase "and copolymers and grafts of such".
